PREFACE

This report presents the results of an Air Force occupational survey of the AFSC 3V0X3, Visual Information Videographer, career ladder. Authority for conducting occupational surveys is contained in AFI 36-2623. Computer products used in this report are available for use by operations and training officials.

Captain Carol Owen, Inventory Development Specialist, developed the survey instrument; Mrs. Joan Brooks, Occupational Analyst, analyzed the data and wrote the final report. Mrs. Olga Velez provided computer programming support, and Mr. Richard Ramos provided administrative support. Major Randall C. Agee, Chief, Airman Analysis Section, Occupational Analysis Flight, Air Force Occupational Measurement Squadron, reviewed and approved this report for release.

Copies of this report are distributed to Air Staff sections, major commands, and other interested training and management personnel. Additional copies are available upon request to the Air Force Occupational Measurement Squadron, Attention: Chief, Occupational Analysis Flight (OMY), 1550 5th Street East, Randolph AFB, Texas 78150-4449 (DSN 487-6623).

RICHARD C. OURAND, JR., Lt Col, USAF

SUMMARY OF RESULTS

1. Survey Coverage: The Visual Information Videographer (AFSC 3V0X3) career ladder was surveyed to obtain current job and task data for use in updating career ladder training documents and the technical school training program. Survey results are based on data collected from 166 AFSC 3V0X3 personnel. This represents 59 percent of the total assigned population.
2. Specialty Jobs: Structure analysis of the AFSC 3V0X3 data identified 2 jobs: Visual Documentation Production, and Aerial Videography. Both jobs were directly involved in video functions, but differed in audio and editing functions.
3. Career Ladder Progression: Normal career ladder progression within the AFSC 3V0X3 career ladder is evident. Three-skill level personnel spend the vast majority of their job time performing technical tasks involving video and editing activities. At the 5-skill level, personnel are still heavily involved in video and editing activities, but begin to become involved with aerial videography activities. Seven-skill level personnel reflect a shift toward supervisory and management work, although 73 percent are still involved with performing technical tasks. AFMAN 36-2108 *Specialty Description* provides a broad and generally accurate description of the technical and supervisory functions performed within the career ladder.
4. Training Analysis: First-enlistment members spend approximately 95 percent of their duty time devoted to technical and administrative or supply functions. The Specialty Training Standard (STS) is supported by survey data. Subject-matter experts, however, should carefully review the STS for possible fine-tuning of content and proficiency codes.
5. Job Satisfaction Analysis: In general, job satisfaction among AFSC 3V0X3 personnel is fairly high, with no serious satisfaction problems noted. Personnel working in the Aerial Videography job had the lower job satisfaction than personnel in the Visual Documentation Production job.
6. Implications: The AFSC 3V0X3 career ladder structure identified in this report is similar to that found in the 1989 OSR. AFMAN 36-2108 *Specialty Description* accurately describes the jobs and tasks being performed. Job satisfaction is fairly high among career ladder incumbents. The STS provides comprehensive coverage of tasks performed by career ladder personnel across both jobs. Overall satisfaction was positive for the jobs identified.

**OCCUPATIONAL SURVEY REPORT (OSR)
VISUAL INFORMATION VIDEOGRAPHER CAREER LADDER
(AFSC 3V0X3)**

INTRODUCTION

This is a report of an occupational survey of the Visual Information Videographer career ladder conducted by the Occupational Analysis Flight, Air Force Occupational Measurement Squadron. The survey was conducted to obtain current job and task data. Data collected through this OSR will be utilized by training development personnel to review courses and related training documents in light of equipment and utilization changes which have occurred since the last OSR in 1989.

Background

As described in the AFMAN 36-2108 *Specialty Description* for AFSC 3V0X3, dated 31 October 1994, members are responsible for supervising and accomplishing aerial or ground camera assignments; performing production-related functions; acting as technical director or switcher; acting as floor manager; functioning as television production camera operator; acting as prompter operator; performing visual information editorial functions; accomplishing audio recording or sound distribution; performing optical instrumentation; and supervising or performing visual information functions.

Initial 3-skill level training for AFSC 3V0X3 personnel is currently provided through a 78-day course (AFIS-BVP) at Ft Meade MD. This course provides training in basic motion media techniques; recording of controlled and uncontrolled actions in field and studio environments; basic audio recording, audio and video production operations; and videotape editing under field and studio conditions.

Entry into the career ladder currently requires Armed Forces Vocational Aptitude Battery minimum scores of 58 General, and strength factor of J (60 lbs).

APPROVED FOR PUBLIC RELEASE; DISTRIBUTION UNLIMITED

SURVEY METHODOLOGY

Inventory Development

The data collection instrument for this occupational survey was USAF Job Inventory (JI) AFPT 90-3V0-041, dated May 1994. The Inventory Developer prepared a tentative task list by reviewing pertinent career ladder publications, directives, and the previous JI and OSR. This task list was further refined and validated through personal interviews with 29 subject-matter experts representing a variety of major commands (MAJCOMs) at the following locations:

<u>BASE</u>	<u>UNIT VISITED</u>
Lowry AFB CO	DVISCH
Lackland AFB TX	Det 7, 2 CTCS
Hill AFB UT	Det 8, 2 CTCS
Charleston AFB SC	1 CTCS

The resulting JI contained a comprehensive listing of 346 tasks grouped under 13 duty headings with a background section requesting such information as grade, MAJCOM, job title, time in present job, time in service, job satisfaction, functional area, organizational level, equipment and forms used.

Survey Administration

Military Personnel Flights at operational bases worldwide administered the inventory to 219 DAFSC 3V0X3 personnel holding a 3-, 5-, or 7-skill level. Personnel excluded from taking the survey comprised the following: (1) hospitalized personnel; (2) personnel in transition for a permanent change of station; (3) personnel retiring during the time inventories were administered to the field; and (4) personnel in their job less than 6 weeks. Participants were selected from a computer-generated mailing list obtained from personnel data tapes maintained by the Air Force Military Personnel Center.

Each individual who completed the inventory first filled in an identification and biographical information section and then checked each task performed in the member's current job. After checking all tasks performed, respondents then rated each task on a 9-point scale showing relative time spent on that task, as compared to all other tasks checked. The ratings ranged from 1 (very small amount time spent) through 5 (about average time spent) to 9 (very large amount spent).

To determine relative time spent for each task checked by a respondent, all of the incumbent's ratings are assumed to account for 100 percent of the member's time spent on the job. First, the ratings are summed. Each task rating is then divided by the sum of task ratings and multiplied by 100 to provide a relative percentage of time for each task. This procedure provides a basis for comparing tasks in terms of both percent members performing and average percent time spent.

Survey Sample

The final AFSC 3V0X3 survey sample includes responses from 166 job incumbents. Table 1 reflects the distribution, by MAJCOM, of assigned AFSC 3V0X3 personnel as of December 1993. The 166 respondents in the final sample represent 59 percent of all assigned AFSC 3V0X3 personnel. Table 2 reflects the distribution by paygrade. The survey sample is slightly overrepresented in the junior grades and underrepresented in the senior grades. However, the discrepancy is small and the results are usable for generalizing to the overall population.

Task Factor Administration

Job descriptions alone do not provide sufficient data for making decisions about career ladder documents or training programs. Task factor information is needed for a complete analysis of the career ladder. To obtain the needed task factor data, selected senior AFSC 3V0X3 personnel (generally E-6 or E-7 craftsmen) also completed a second booklet for either training emphasis (TE) or task difficulty (TD). These booklets were processed separately from the JIs. This information is used in a number of different analyses discussed in more detail within the report.

Task Difficulty (TD). Task difficulty is defined as an estimate of how much time the average airman needs to learn to perform a task satisfactorily. Each individual completing a TD booklet rated all inventory tasks on a 9-point scale (from extremely low to extremely high). TD data were independently collected from 25 experienced 7-skill level personnel stationed worldwide. Interrater reliability was calculated and found acceptable. Ratings were standardized so tasks have an average difficulty rating of 5.00, with a standard deviation of 1.00. The resulting data yield essentially a rank ordering of tasks indicating the degree of difficulty for each task in the inventory.

Training Emphasis (TE). Individuals completing TE booklets were asked to rate tasks on a 10-point scale from no training required to extremely high amount of TE. TE is a rating of which tasks require emphasis in structured training for first-term personnel. Structured training is defined as training provided by resident technical schools, field training detachments (FTD), mobile training teams (MTT), formal on-the-job training (OJT), or any other organized training method. TE data were independently collected from 28 experienced 7-skill level personnel stationed worldwide. As with TD ratings, the interrater reliability was computed and found to be acceptable, indicating there was sufficient agreement among raters as to which tasks require some

** Less than 1 percent

form of structured training. In this specialty, the average TE rating was 2.75, and the standard deviation was 2.07. Tasks rated high in TE are rated 4.82 and above. As was discussed in the TD section above, TE data may also be used to rank order tasks, indicating those tasks which senior noncommissioned officers (NCOs) in the field consider the most important for first-enlistment airmen to be trained to perform.

When used in conjunction with the primary criterion of percent members performing, TD and TE ratings can provide insight into first-enlistment personnel training requirements. Such insights may suggest a need for lengthening or shortening portions of instruction supporting AFS entry-level jobs.

SPECIALTY JOBS (Career Ladder Structure)

Each Air Force occupational analysis begins with an examination of the career ladder structure. The structure of jobs within the Visual Information Videographer career ladder was examined on the basis of similarity of tasks performed and the percent of time spent ratings provided by job incumbents, independent of other specialty background factors.

Each individual in the sample performs a set of tasks called a job. A hierarchical grouping program, which is a basic part of the Comprehensive Occupational Data Analysis Program (CODAP) system, creates an individual job description for each respondent (all the tasks performed by that individual and the relative amount of time spent on those tasks). It then compares each job description to every other job description in terms of tasks performed and the relative amount of time spent on each task in the JI. The automated system locates the two job descriptions with the most similar tasks and percent time ratings and combines them to form a composite job description. In successive stages, the system adds new members to the initial group or forms new groups based on the similarity of tasks performed and similar time ratings in the individual job descriptions.

When there is a substantial degree of similarity between jobs, they are grouped together and identified as a cluster. The job structure resulting from this grouping process (the various jobs and clusters within the career ladder) can be used to evaluate the accuracy of career ladder documents (Career Field Education and Training Plans (CFETP), AFMAN 36-2108 *Specialty Description*, and Specialty Training Standards (STS)), and to gain a better understanding of current utilization patterns.

Overview of Specialty Jobs

Based on the similarity of tasks performed and the amount of time spent performing each task, only two jobs were identified within the AFSC 3V0X3 survey sample. A listing of these jobs is provided below and illustrated in Figure 1. The stage (ST) number shown beside each title references computer-generated information; the letter "N" stands for the number of personnel in each group.

- I. Visual Documentation Production (STG015, N=140)
- II. Aerial Videography (STG019, N=5)

The respondents forming these groups account for 85 percent of the survey sample. The remaining 15 percent are performing tasks or a series of tasks which do not group with any of the defined jobs. Examples of job titles for these people include: NCOIC Graphics, NCOIC Cable Network, Superintendent Video Operations, Operating Location Chief, Video Manager, and Training NCOIC.

Group Descriptions

The following paragraphs contain brief descriptions of the two jobs identified through the career ladder structure analysis. Also presented are two tables which reflect the time incumbents spend on duties and selected background data for each group. Table 3 presents the relative time spent by respondents in each job across each duty listed in the JI. Table 4 displays selected background information, such as DAFSC distributions across each group, average of total months in active military service (i.e., Total Active Federal Military Service (TAFMS)), and average number of tasks performed. Appendix A at the back of this OSR lists representative tasks performed by members of each group.

Another way to illustrate these jobs is to summarize tasks performed into groups of tasks or task modules (TMs). This allows for a very concise display of where job incumbents spend most of their time and thus develops a comprehensive overview of each job. These modules were identified through CODAP copformance clustering, which presents the average probability that if respondents perform one task, they also perform a second task or a group of related tasks. The probabilities are calculated on the actual copformance of tasks by respondents in this survey sample. Representative TMs are listed as part of each job description. The listing of the TMs shows the number of tasks included in a module and the percent time spent on tasks in that module, and finally, an average percent of members performing the particular TM. The list of modules, with respective tasks, is presented in Appendix B.

PERCENT SUPERVISING	1%	0%

* Less than 1 percent

NOTE: Columns may not total 100 percent due to rounding

I. VISUAL DOCUMENTATION PRODUCTION (STG015, N=140). Incumbents in this job perform an average of 122 tasks. Fifty-two percent of their time is spent performing video, editing, and audio activities (See Table 3). Their work involves video recording, setting up cameras and accessories, and reviewing footage. Examples of tasks performed include:

- record cutaways
- record cut-ins
- perform pans, tilts, or compound movements
- set up camera tripods, spiders, pedestals, or dollies
- record establishing shots
- record re-establishing shots
- perform LS-MS-CU progression recordings
- set up videotape cameras
- record overlapping actions
- review footage prior to editing

Representative TMs for this cluster include:

TM	Module Title	No. of Tasks	Sum Percent Time Spent	Avg. Percent Members Perf.
0001	VIDEO OPERATIONS	30	31	91%
0003	REMOTE SET	14	10	78%
0005	FIELD OPERATIONS	13	1	61%

The predominant module for this job is the Video Operations module. Members spend 31 percent of the job time performing the 30 tasks in that module.

Seventy-nine percent of those holding this job have a 3- or 5-skill level and average 76 month TAFMS. Sixty-five percent are in their first enlistment. Ninety-one percent are assigned to the CONUS.

II. AERIAL VIDEOGRAPHY (STG019, N=5). The personnel in this job spend the largest percentage of their time performing video activities (29 percent), with another 19 percent spent in performing General Administrative or Supply tasks. Unlike the other job identified, members of this job are aircrew qualified and spend 20 percent of their time maintaining Visual Information Equipment and Accessories. Commonly performed tasks include:

perform videotape recordings from aerial platforms
 participate in aircrew briefings or debriefings
 maintain aircrew qualification requirements
 coordinate aerial missions with appropriate agencies
 perform daily or pre-use inspections of equipment
 store film
 store cameras
 maintain batteries for portable videotape equipment
 coordinate video mission requirements with customers
 adjust aperture for exposure

Representative TMs for this job include:

TM	Module Title	No. of Tasks	Sum Percent Time Spent	Avg. Percent Members Perf.
0012	AERIAL VIDEOGRAPHY	6	16	90%
0006	CREW CHIEF RESPONSIBILITIES	6	6	40%
0001	VIDEO OPERATIONS	30	24	35%

As expected, the Aerial Videography module is the most predominant module for this group.

Personnel in this job average 126 months TAFMS. There are no incumbents in their first enlistment. Sixty percent hold the 5-skill level. The predominant paygrades of job incumbents are E-4 and E-5.

Comparison of Current Jobs to Previous Survey Findings

The results of the specialty job analysis were compared to those of the last Visual Information Videographer OSR published in 1989. Although the job titles vary between the two studies, generally the tasks that personnel in both studies perform are the same. As shown in Table 5, both jobs in the current study were also identified in 1989. Four jobs, however, were identified in the 1989 survey but were not identified as distinct groups in the present survey. These were the Video Editing Personnel, Motion Picture Production Personnel, Visual Information Production Documentation Supervisors, and Technical Training Instructors. During the administration of this survey, the school at Lowry AFB CO was in the process of moving to Ft Meade MD, and the training personnel were not included in the survey. Although the three remaining jobs were not identified in this survey, the tasks are being performed by personnel in the Video Documentation Production job.

TABLE 5

COMPARISON OF JOB GROUPS IN CURRENT STUDY
VERSUS 1989 STUDY

1995 STUDY (N=166)	1989 STUDY (N=195)
Visual Documentaion-Production	Videotape Production Personnel
	Videotape Editing Personnel
	Motion Picture Production Personnel
	Visual Information Production Documentation Supervisors
Not Identified	Technical Training Instructors
Aerial Videography	Aerial Photography Personnel

ANALYSIS OF DAFSC GROUPS

An analysis of DAFSC groups, in conjunction with the analysis of the career ladder structure, is an important part of each occupational survey. The DAFSC analysis identifies differences in tasks performed at the various skill levels. This information may be used to evaluate how well career ladder documents, such as the CFETP, *AFMAN 36-2108 Specialty Description*, and the STS, reflect what career ladder personnel are actually doing in the field.

The distribution of skill-level groups across the two career ladder jobs is displayed in Table 6, while Table 7 offers another perspective by displaying the relative percent time spent on each duty across the skill-level groups.

A typical pattern of progression is noted within the AFSC 3V0X3 career ladder. Personnel at the 3- and 5-skill levels work in the technical jobs of the career ladder and spend most of their time performing video activities. As incumbents move up to the 7-skill level, higher percentages perform supervisory functions, but they still spend considerable time on video, audio, editing, and producing, directing, and writing activities. (See Tables 6 and 7).

Skill-Level Descriptions

DAFSC 3V033. The 57 airmen in the 3-skill level group, representing 34 percent of the survey sample, spend most of their job time on video, and editing activities (see Table 7). Ninety-three percent are working in the Visual Documentation Production job (see Table 6). The focus of their job is shown by figures in Table 8, which lists representative tasks performed by 3-skill level incumbents. Most tasks listed relate to Duty G (Performing Video Activities) and Duty J (Performing Editing Activities).

DAFSC 3V053. The 71 airmen in the 5-skill level group represent 43 percent of the total survey sample. As with 3-skill level personnel, the largest percentages of these incumbents are working in the Visual Documentation Production job (80 percent). However, a small percent work in the Aerial Videography job (4 percent). Time on duties show an increase of time spent on supervisory duties. (See Table 7).

Representative tasks performed by 5-skill level incumbents are listed in Table 9. Table 10 reflects those tasks which best differentiate 5-skill level personnel from their 3-skill level counterparts. Figures show the jobs are quite similar, except a slightly higher percentage of 5-skill level personnel perform some supervisory tasks.

DAFSC 3V073. Seven-skill level personnel represent 23 percent of the survey sample. Unlike their junior counterparts at the 3- and 5-skill levels, the largest percentage of these personnel perform supervisory duties (27 percent versus less than 6 percent and 9 percent for the 3- and 5-

skill levels, respectively) (See Table 7). However, the majority (79 percent) of 7-skill level personnel perform the Visual Documentation Production job (See Table 6). Table 11 lists the most common tasks performed by 7-skill level personnel. Although some of these involve supervisory functions, most tasks performed by 7-skill level personnel are technical. Table 12 shows those tasks which best differentiate the 5- and 7-skill levels. As expected, the key difference is a greater emphasis on supervisory and administrative functions at the 7-skill level.

Summary

Progression in this career ladder follows a normal pattern of highly technical job focus at the lower skill levels with a broadening into supervision at the 7-skill level. Emphasis is seen in performing primarily the job of Visual Documentation Production at the 3- and 5-skill levels.

ANALYSIS OF AFMAN 36-2108 SPECIALTY DESCRIPTION

Survey data were compared to the AFMAN 36-2108 *Specialty Description* for Visual Information Videographer, effective 31 October 1994. This specialty description is intended to provide a broad overview of the duties and responsibilities of each skill level. In general, the specialty description covers tasks and jobs performed by career ladder personnel.

TRAINING ANALYSIS

Occupational survey data represent one of many sources of information which are used to assist in the development of training programs for career ladder personnel. OSR data useful to training personnel include job descriptions for the various jobs performed within a career ladder, distribution of personnel across career ladder jobs, percentages of personnel performing specific tasks, and percentages of personnel maintaining specific equipment or systems, as well as the difficulty of tasks and TE ratings gathered from senior members of the career ladder.

TE and TD Data

TE and TD data are secondary factors that can help technical school personnel decide which entry-level training tasks to emphasize. These ratings, based on the judgments of senior career ladder NCOs at operational units, provide training personnel with a rank ordering of those tasks considered important for first-enlistment airman training (TE), and a measure of the difficulty of those tasks (TD). When combined with data on the percentages of first-enlistment personnel performing tasks, comparisons can be made to determine if training adjustments are necessary. For example, tasks receiving high ratings on both task factors (TE and TD), accompanied by moderate to high percentages performing, may warrant resident training. Those tasks receiving

high task factor ratings but low percentages performing may be more appropriately planned for OJT programs within the career ladder. Low task factor ratings may highlight tasks best omitted from training for first-enlistment personnel. This decision must be weighed against percentages of personnel performing the tasks, command concerns, and criticality of the tasks.

To help training personnel focus on tasks which are most appropriate for entry-level training, an additional factor, the Automated Training Indicator (ATI), was assigned to each task in the inventory. A computer program considered percent first-enlistment members performing, TE and TD ratings, and the Course Training Decision Logic Table found in AETCR 52-22, Atch 1, and assigned an ATI value to each task corresponding to the 18 training decisions on the table. The decision table and explanation of ATIs precede the listing of tasks in descending order of ATI in the TRAINING EXTRACT. Training personnel should focus on tasks with an ATI of 18, which suggests these tasks should be in the entry-level course.

Tasks having the highest TE ratings are listed in Table 13. Included for each task are the percentage of first-job and first-enlistment personnel performing and the TD rating. Tasks with the highest TE deal with Performing Video Activities (Duty G), and Performing Editing Activities (Duty J).

Table 14 lists the tasks having the highest TD ratings. The percentages of first-job, first-enlistment, 5-, and 7-skill level personnel performing, and the TE ratings are also included for each task. The majority of tasks with high difficulty are not performed by high percentages of any group, but one task, Edit Tapes Using Computerized Editing Techniques, is performed by at least 20 percent of first-job, first-enlistment, and 5- and 7-skill level personnel and has a fairly high TE rating. Most of the tasks with high TD values are related to management functions.

Various lists of tasks, accompanied by TE and TD ratings, are contained in the TRAINING EXTRACT package and should be reviewed in detail by technical school personnel. For a more detailed explanation of TD and TE ratings, see the Task Factor Administration in the SURVEY METHODOLOGY section of this report.

First-Enlistment Personnel

In this study, there are 87 members in their first enlistment (1-48 months TAFMS), representing 52 percent of the survey sample. As displayed in Table 15, approximately 93 percent of their duty time is devoted to technical functions. Figure 2 shows how all first-enlistment personnel are distributed across the jobs identified in the SPECIALTY JOBS section of this report. Of the two jobs identified, 84 percent of first-enlistment personnel are found in the Visual Documentation Production job and less than 1 percent are in the Aerial Videography job.

Table 16 displays commonly performed tasks for first-enlistment personnel. Majority of tasks displayed involve video and editing activities. Equipment utilized by 30 percent or more of first-job or first-enlistment personnel is listed in Table 17.

Specialty Training Standard (STS)

In April 1995, training personnel from Ft Meade matched tasks in the JI to appropriate sections of the STS. A listing of the STS was then produced showing each STS paragraph and subparagraph, tasks matched, percent criterion group members performing, TE and TD ratings, and ATI. This listing is included in the Training Extract sent to the school for review. Criteria set forth in ATCR 52-22 Attachment 1, were used to review the relevance of each STS paragraph and subparagraph with matched tasks.

Any STS paragraph or subparagraph with matched tasks performed by 20 percent or more of first-job (1-24 months TAFMS), first-enlistment (1-48 months TAFMS), 5-, or 7-skill level members is considered to be supported and should be retained in the STS. General paragraphs, such as Security, AF Occupational Safety and Health (AFOSH) Program, USAF Graduate Evaluation Program, Supervision, and Training (paragraphs 1 through 6) were not reviewed. Paragraphs 7 through 30 were thoroughly reviewed against OSR data. Overall, the STS provides comprehensive coverage of tasks performed by career ladder personnel across both jobs. Four entries were unsupported by survey data: 18d(1), 18d(2), 23a(2), and 30b need to be reviewed for deletion in future revisions due to small percentages (less than 20 percent) performing related tasks (see Table 18).

Tasks not matched to any element of the STS are listed at the end of the STS computer listing. Only five technical tasks performed by more than 20 percent of criterion group members were not matched to the STS. They involve mobile field operations, microphone phasing, studio lighting, videotape recording, and talent participation (see Table 19).

JOB SATISFACTION ANALYSIS

An examination of responses to the job satisfaction questions can give career ladder managers a better understanding of some of the factors which may affect the job performance of airmen in the career ladder. The survey booklet included questions covering job interest, perceived utilization of talents and training, sense of accomplishment from work, and reenlistment intentions. The responses of the current survey sample were then analyzed by making several comparisons: (1) among TAFMS groups of the Visual Information Videographer career ladder and a comparative sample of personnel from other Direct Support career ladders surveyed in 1994 (AFSCs 3A0X1, 3C2X1, 3E0X2, 3E7X1, 3E8X1, 3M0X1, and 3R0X1); (2) between current and previous survey experience groups; and (3) across specialty groups identified in the SPECIALTY JOBS section of the report.

Table 20 compares first-enlistment (1-48 months TAFMS), second-enlistment (49-96 months TAFMS), and career (97+ months TAFMS) group data to corresponding enlistment groups from other Direct Support AFSCs surveyed during the previous calendar year. These data give a

Comparative data are from AFSCs 3A0X1, 3C2X1, 3E0X2, 3E7X1, 3E8X1, 3M0X1, and 3R0X1 surveyed in 1994

relative measure of how the job satisfaction of AFSC 3V0X3 personnel compares with similar Air Force specialties. Overall, satisfaction for all three TAFMS groups in AFSC 3V0X3 is fairly high with no serious satisfaction problems noted.

Comparison of job satisfaction indicator responses of the current survey TAFMS groups to TAFMS groups in the AFSC 231X3 1989 survey (see Table 21) indicates that generally the 1995 responses are lower than the 1989 responses of AFSC 231X3 respondents with the exception of "Perceived Use of Training" for the 1-48 month and 97+ month TAFMS group which was higher.

An examination of job satisfaction data can also reveal the influences performing certain jobs may have on overall job satisfaction. Table 22 presents job satisfaction data for the jobs identified in the career ladder structure for AFSC 3V0X3. Expressed job interest for the Aerial Videography job was the lowest of the jobs identified.

IMPLICATIONS

As explained in the **INTRODUCTION**, this survey was conducted primarily to provide training personnel with current information on the Visual Information Videographer career ladder for use in reviewing current training programs and training documents. Overall job progression is normal and shows a distinct pattern as one moves from the 3-skill level to the 7-skill level. *AFMAN 36-2108 Specialty Description* broadly describes the jobs and tasks being performed. Job satisfaction is fairly high, and no serious problem areas were noted. Analysis of career ladder documents indicate the STS is well supported by survey data.

APPENDIX A

**REPRESENTATIVE TASKS PERFORMED BY
MEMBERS OF CAREER LADDER JOBS**

THIS PAGE INTENTIONALLY LEFT BLANK

TABLE A1
VIDEO DOCUMENTATION PRODUCTION
(STG015, N=140)

TYPICAL TASKS		PERCENT
G215	Record cutaways	100
G214	Record cut-ins	100
G207	Perform pans, tilts, or compound movements	99
G222	Set up camera tripods, spiders, pedestals, or dollies	99
G216	Record establishing shots	99
G218	Record re-establishing shots	96
G206	Perform LS-MS-CU progression recordings	96
G226	Set up video cameras	96
G217	Record overlapping actions	96
G219	Record transitions	96
H239	Position microphones	94
J299	Review footage prior to editing	94
J294	Perform insert video editing	94
H243	Regulate levels of audio equipment	93
J289	Edit tapes using time codes	92
J293	Perform insert audio editing	92
K314	Set up portable lighting equipment	91
G205	Perform medium-shot (MS) recordings	91
G203	Perform long-shot (LS) recordings	90
J283	Edit acceptable coverage in productions or documentations	90
J288	Edit tapes using tapes and dissolves	89
G177	adjust aperture for exposures	88
K304	Determine lighting equipment requirements for documentation	87
J290	Match correct audio with video materials	87
M331	Maintain batteries for portable videotape equipment	86
J292	Perform assemble video editing	85
F156	Label visual information materials	

TABLE A2
AERIAL VIDEOGRAPHY
(STG019, N=5)

TYPICAL TASKS		PERCENT
G209	Perform videotape recordings from aerial platforms	100
F161	Participate in aircrew briefings or debriefings	100
F158	Maintain aircrew qualification requirements	100
F151	Coordinate aerial missions with appropriate agencies	100
M332	Perform daily or pre-use inspections of equipment	100
M344	Store film	100
M343	Store cameras	100
M331	Maintain batteries for portable video equipment	100
F155	Coordinate video mission requirement with customers	100
G177	Adjust aperture for exposure	100
G205	Perform medium-shot (MS) recordings	80
G221	Set focal length of lens	80
M341	Perform operator maintenance on video equipment or accessories	80
M345	Store tape	80
M342	Secure equipment for storage or transport	80
F156	Label visual information materials	80
G223	Set up image stabilizing equipment or videotape cameras	60
E144	Respond to work requests	60
I276	Verify mission requirements are met	60
F152	Coordinate aircraft support for aerial missions with appropriate agencies	60
E130	Initiate work orders for photographic support	60
G201	Perform in-camera editings	60
G203	Perform long-shot (LS) recordings	60
G189	Inspect condition of videotape	60
E126	Identify equipment for turn-in or maintenance	60
G196	Perform classified production or documentation videotape recordings	60

APPENDIX B
LISTING OF MODULE STATEMENTS

THIS PAGE INTENTIONALLY LEFT BLANK

These Task Modules (TMs) were developed in order to organize and summarize the extensive task information for this specialty. The TMs were derived by statistical clustering of the tasks in terms of which tasks are performed by the same incumbents. For example, if an individual performs one Video Operations task, the probability is very high that he or she also will perform other Video Operations tasks. Thus, the group of one Video Operations tasks can be considered a "natural group" of associated or related tasks (see TM 0001 below). The statistical clustering generally approximates these "natural groupings."

The title of each TM is our best estimate as to the generic subject content of the group of tasks. The TMs are useful for organizing the task data into meaningful units and as a way to concisely summarize the extensive job data. However, TMs are only one way to organize the information. Other strategies may also be valid.

Listing of Module Statements

0001	ST0271	Video Operations
0002	ST0241	Camera Shooting Techniques
0003	ST0259	Remote Set Up
0004	ST0204	Editing
0005	ST0181	Field Operations
0006	ST0140	Crew Chief Responsibilities
0007	ST0147	Video Production/Documentation Meeting
0008	ST0156	Audio Techniques
0009	ST0157	Media Library
0010	ST0162	Pre-Production/Documentation
0011	ST0163	Script Review
0012	ST0144	Aerial Videography
0013	ST0137	Supervision
0014	ST0169	Coordination
0015	ST078	Safety/Security Programs
0016	ST0172	Set Design and Construction

0019	ST0129	Training
0020		Tasks not Referenced

0001	ST0271	Video Operations
------	--------	------------------

1	G177	Adjust aperture for exposure
2	G203	Perform long-shot (LS) recordings
3	G205	Perform medium-shot (MS) recordings
4	G206	Perform LS-MS-CU progression recordings
5	G207	Perform pans, tilts, or compound movements
6	G214	Record cut-ins
7	G215	Record cutaways
8	G216	Record establishing shots
9	G217	Record overlapping actions
10	G218	Record re-establishing shots

0001	ST0271	Video Operations (Continued)
------	--------	------------------------------

- | | | |
|----|------|--|
| 11 | G219 | Record transitions |
| 12 | G222 | Set up camera tripods, spiders, pedestals, or dollies |
| 13 | G226 | Set up videotape cameras |
| 14 | H239 | Position microphones |
| 15 | H243 | Regulate levels on audio equipment |
| 16 | J283 | Edit acceptable coverage in productions or documentations |
| 17 | J284 | Edit audio tracks |
| 18 | J288 | Edit tapes using fades and dissolves |
| 19 | J289 | Edit tapes using time codes |
| 20 | J290 | Match correct audio with video materials |
| 21 | J291 | Perform A/B roll editing for videotape productions or documentations |
| 22 | J292 | Perform assemble video editing |
| 23 | J293 | Perform insert audio editing |
| 24 | J294 | Perform insert video editing |
| 25 | J299 | Review footage prior to editing |
| 26 | M331 | Maintain batteries for portable videotape equipment |
| 27 | M332 | Perform daily or pre-use inspections of equipment |
| 28 | M342 | Secure equipment for storage or transport |
| 29 | M343 | Store cameras |
| 30 | M345 | Store tape |
-

0002	ST0241	Camera Shooting Techniques
------	--------	----------------------------

- | | | |
|---|------|---|
| 1 | G201 | Perform in-camera editings |
| 2 | G208 | Perform reverse-shot progression recordings |
| 3 | G211 | Prepare complete and accurate captions |
| 4 | G213 | Prepare slates |
-

0003	ST0259	Remote Set Up
------	--------	---------------

- | | | |
|----|------|--|
| 1 | H233 | Determine audio requirements for productions or documentations |
| 2 | H234 | Determine audio requirements for shooting locations |
| 3 | H236 | Make corrections for extraneous ambient noises |
| 4 | H240 | Prepare audio equipment for interior or exterior operations |
| 5 | H242 | Record original audio sources |
| 6 | I277 | Visually inspect shooting locations for hazardous conditions |
| 7 | K302 | Determine lighting color balances for videotape documentations |
| 8 | K304 | Determine lighting equipment requirements for documentations |
| 9 | K305 | Determine lighting equipment requirements for productions |
| 10 | K306 | Determine lighting levels for videotape documentations |
| 11 | K307 | Determine lighting levels for videotape productions |
| 12 | K309 | Determine lighting requirements for controlled action |
| 13 | K310 | Determine lighting requirements for uncontrolled action |
| 14 | K314 | Set up portable lighting equipment |

0004 ST0204 Editing

- 1 G194 Monitor waveform equipment
- 2 H238 Mix audio special effects, narrations, or music
- 3 J285 Edit tapes using computerized editing techniques
- 4 J287 Edit tapes using edit decision lists
- 5 J295 Perform still frame editing
- 6 J298 Record time code editing pulses on videotape materiel

0005 ST0181 Field Operations

- 1 F159 Pack or unpack mobile field equipment
- 2 G199 Perform electronic field production (EFP) videotape recordings
- 3 G200 Perform ENG videotape recordings
- 4 K301 Determine amperage or wattage capacity of circuits
- 5 K303 Determine lighting color balances for videotape productions
- 6 K308 Determine lighting ratios
- 7 K311 Perform EFP lighting
- 8 K312 Perform ENG lighting
- 9 K313 Perform studio lighting
- 10 M333 Perform operator maintenance on audio equipment
- 11 M334 Perform operator maintenance on editing equipment
- 12 M336 Perform operator maintenance on lighting equipment
- 13 M341 Perform operator maintenance on videotape equipment or accessories

0006 ST0140 Crew Chief Responsibilities

- 1 F155 Coordinate video mission requirements with customers
- 2 F157 List mission equipment or accessories requirements
- 3 G183 Determine videotape formats
- 4 I254 Direct videotape editing
- 5 I255 Direct videotape productions or documentations
- 6 I276 Verify mission requirements are met

0007 ST0147 Video Production/Documentation Meeting

- 1 F160 Participate as talent in productions or documentations
- 2 F162 Participate in documentation critiques
- 3 F163 Participate in predocumentation or postdocumentation conferences
- 4 F164 Participate in preproduction or postproduction conferences
- 5 F165 Participate in production critiques

0008 ST0156 Audio Techniques

- 1 H231 Cue audio equipment
- 2 H237 Make corrections for microphone phasings
- 3 H244 Research audio materials, such as records, tapes, or musical transcripts
- 4 H246 Transfer audiotapes or tracks

0009	ST0157	Media Library
------	--------	---------------

- | | | |
|---|------|---------------------------------------|
| 1 | E134 | Maintain copies of stock footage |
| 2 | E136 | Maintain edited master tape libraries |
| 3 | E144 | Respond to work requests |
| 4 | F168 | Research stock footage |
| 5 | G186 | Erase videotapes |
-

0010	ST0162	Pre-Production/Documentation
------	--------	------------------------------

- | | | |
|---|------|---|
| 1 | G229 | Verify practicality of shooting outlines |
| 2 | I260 | Prepare shooting outlines |
| 3 | I263 | Review rough edits, final edits, or dailies |
| 4 | I264 | Review scripts for audio requirements |
| 5 | I267 | Review scripts for videotape requirements |
-

0011	ST0163	Script Review
------	--------	---------------

- | | | |
|---|------|---|
| 1 | I265 | Review scripts for security, sensitivity, policy, propriety, editorializing, or libel |
| 2 | I268 | Review scripts for visualization |
| 3 | I269 | Review technical accuracies of productions or documentations with technical advisors |
| 4 | I270 | Schedule editing cells |
-

0012	ST0144	Aerial Videography
------	--------	--------------------

- | | | |
|---|------|---|
| 1 | F151 | Coordinate aerial missions with appropriate agencies |
| 2 | F152 | Coordinate aircraft support for aerial missions with appropriate agencies |
| 3 | F158 | Maintain aircrew qualification requirements |
| 4 | F161 | Participate in aircrew briefings or debriefings |
| 5 | G209 | Perform videotape recordings from aerial platforms |
| 6 | G223 | Set up image stabilizing equipment on videotape cameras |
-

0013	ST0137	Supervision
------	--------	-------------

- | | | |
|----|-----|---|
| 1 | A1 | Assign duties to team members |
| 2 | A4 | Determine logistics requirements, such as personnel, equipment, space, tools, or supplies |
| 3 | A9 | Develop work methods, controls, or procedures |
| 4 | A12 | Establish performance standards for subordinates |
| 5 | A13 | Establish procedures for accountability of equipment, tools, or supplies |
| 6 | A15 | Establish work schedules |
| 7 | A19 | Plan or schedule work assignments or priorities |
| 8 | A25 | Schedule personnel for temporary duty (TDY) assignments, leaves, or passes |
| 9 | B29 | Conduct supervisory orientations of newly assigned personnel |
| 10 | B30 | Counsel subordinates |
| 11 | B40 | Initiate action to correct substandard performance of personnel |
| 12 | B42 | Interpret policies, directives, or procedures for subordinates |
| 13 | B43 | Resolve technical problems for subordinate personnel |

0013	ST0137	Supervision (Continued)
------	--------	-------------------------

- | | | |
|----|------|---|
| 14 | B44 | Supervise Visual Information Production-Documentation Apprentices (AFSC 3V033) |
| 15 | B45 | Supervise Visual Information Production-Documentation Journeymen (AFSC 3V053) |
| 16 | C50 | Conduct performance feedback worksheet (PFW) evaluation sessions |
| 17 | C60 | Evaluate personnel for compliance with work or performance standards |
| 18 | C61 | Evaluate personnel for promotion, demotion, reclassification, or special awards |
| 19 | C67 | Evaluate videotape procedures |
| 20 | C69 | Evaluate work procedures |
| 21 | C74 | Inspect personnel for compliance with military standards |
| 22 | C78 | Write EPRs |
| 23 | C80 | Write recommendations for awards or decorations |
| 24 | D91 | Counsel trainees on training progress |
| 25 | D100 | Evaluate personnel for training needs |
| 26 | D101 | Evaluate progress of trainees |
| 27 | D102 | Evaluate training methods or techniques |
| 28 | D105 | Maintain training records, charts, graphs, or files |
| 29 | D106 | Plan or schedule training, such as OJT, proficiency training, or orientation training |
| 30 | E129 | Initiate TDY orders or amendments |
-

0014	ST0169	Coordination
------	--------	--------------

- | | | |
|---|------|---|
| 1 | E119 | Coordinate crew clearances, such as security, theater, or restricted area with appropriate agencies |
| 2 | E120 | Coordinate crew logistics, such as transportation, billeting, or messing with appropriate agencies |
| 3 | E121 | Coordinate equipment logistics, such as packing, shipping, or storage with appropriate agencies |
| 4 | E122 | Coordinate story or subject-matter treatment with technical advisors |
-

0015	ST0078	Safety/Security Programs
------	--------	--------------------------

- | | | |
|---|-----|---------------------------------------|
| 1 | A8 | Develop safety or security programs |
| 2 | B36 | Implement safety or security programs |
| 3 | C64 | Evaluate safety or security programs |
| 4 | D83 | Administer or score tests |
-

0016	ST0172	Set Design and Construction
------	--------	-----------------------------

- | | | |
|---|------|---------------------------------------|
| 1 | L318 | Coordinate set designs with directors |
| 2 | L319 | Design sets |
| 3 | L320 | Dress sets |
| 4 | L324 | Set up chromakey sets |
| 5 | L325 | Set up cyclorama sets |
| 6 | L326 | Set up flats |

0017	ST0124	Civilian Supervision
------	--------	----------------------

- | | | |
|---|-----|---|
| 1 | A26 | Write job or position descriptions |
| 2 | B28 | Conduct general staff meetings or briefings |
| 3 | B47 | Supervise military personnel with AFSCs other than 3V0X3 |
| 4 | B48 | Supervise civilians |
| 5 | C58 | Evaluate job or position descriptions |
| 6 | C77 | Write civilian performance appraisals |
| 7 | C82 | Write staff studies, surveys, or special reports, other than training reports |
-

0018	ST0155	OJT
------	--------	-----

- | | | |
|---|------|--|
| 1 | D89 | Construct or develop training materials or aids |
| 2 | D95 | Develop OJT programs |
| 3 | D98 | Evaluate effectiveness of training programs |
| 4 | D99 | Evaluate effectiveness of training, such as career knowledge upgrade, job proficiency upgrade, or qualification training |
| 5 | D108 | Prepare training outlines |
| 6 | D109 | Procure training aids, space, or equipment |
-

0019	ST0129	Training
------	--------	----------

- | | | |
|---|------|---|
| 1 | C76 | Participate in USAF Graduate Evaluation Program |
| 2 | C79 | Write inspection or discrepancy reports |
| 3 | D88 | Conduct training conferences, briefings, or debriefings |
| 4 | D96 | Develop or prepare lesson plans |
| 5 | D103 | Evaluate training requirements for instructors |
-

0020	Tasks not Referenced
------	----------------------

- | | | |
|----|-----|---|
| 1 | A2 | Assign personnel to duty positions |
| 2 | A3 | Assign sponsors for incoming personnel |
| 3 | A5 | Develop cost-reduction programs |
| 4 | A6 | Develop mobility, contingency, disaster preparedness, or unit emergency or alert plans |
| 5 | A7 | Develop organizational or work progress charts |
| 6 | A10 | Draft budget requirements |
| 7 | A11 | Establish organizational policies, such as operating instructions (OIs) or standard operating procedures (SOPs) |
| 8 | A14 | Establish procedures for preparing unit histories |
| 9 | A16 | Organize electronic news gathering (ENG) operations |
| 10 | A17 | Plan audio productions |
| 11 | A18 | Plan or prepare briefings |
| 12 | A20 | Plan unit tours |
| 13 | A21 | Plan videotape productions or documentations |
| 14 | A22 | Schedule maintenance of equipment |
| 15 | A23 | Schedule maintenance of mobile facilities |
| 16 | A24 | Schedule movement of mobile facilities |
| 17 | B27 | Annotate time cards for civilian employees |

0020 Tasks not Referenced (Continued)

18	B31	Direct development or maintenance of status indicators, such as boards, graphs, or charts
19	B32	Direct maintenance of administrative files
20	B33	Draft supplements or changes to directives
21	B34	Implement contingency plans
22	B35	Implement cost-reduction programs
23	B37	Implement self-inspection programs
24	B38	Implement suggestion programs
25	B39	Implement work methods or inspection procedures
26	B41	Initiate personnel action requests
27	B46	Supervise Visual Information Production-Documentation Craftsmen (AFSC 3V073)
28	C49	Analyze work load requirements
29	C51	Conduct safety inspections of facilities or equipment
30	C52	Conduct self-inspections
31	C53	Evaluate accident or incident reports
32	C54	Evaluate budget requirements
33	C55	Evaluate cost-reduction programs
34	C56	Evaluate graphic displays
35	C57	Evaluate inspection report findings
36	C59	Evaluate mobility, contingency, disaster preparedness, or unit emergency or alert plans
37	C62	Evaluate procedures for storage, inventory, or inspection of property items
38	C63	Evaluate quality control methods
39	C65	Evaluate suggestions
40	C66	Evaluate unit aircrew qualification status
41	C68	Evaluate videotape recordings for awards
42	C70	Evaluate work schedules
43	C71	Evaluate 3V0X3 aircrew members on inflight procedures
44	C72	Indorse civilian performance appraisals
45	C73	Indorse enlisted performance reports (EPRs)
46	C75	Investigate accidents or incidents
47	C81	Write replies to inspection reports
48	D84	Assign on-the-job training (OJT) trainers or supervisors
49	D85	Assign resident course instructors
50	D86	Conduct OJT
51	D87	Conduct resident course classroom training
52	D90	Coordinate training requirements with local agencies, command agencies, or technical services
53	D92	Determine training requirements for OJT or resident courses
54	D93	Develop career development courses (CDCs)
55	D94	Develop formal course curricula, plans of instruction (POIs), or specialty training standards (STSs)
56	D97	Establish or maintain study reference files
57	D104	Implement training programs
58	D107	Prepare job qualification standards (JQSs)
59	D110	Review curriculum changes for training courses
60	D111	Select or schedule personnel for training

0020 Tasks not Referenced (Continued)

61	D112	Write test questions
62	D113	Write training reports
63	E114	Annotate manpower worksheets
64	E115	Annotate production cost-accounting logs
65	E116	Annotate shipping documents for transport of visual information material
66	E117	Catalog visual information materials
67	E118	Coordinate activities or stories with public affairs personnel
68	E123	Destroy classified documents or material
69	E124	Draft outgoing correspondence
70	E125	Escort equipment during shipment
71	E126	Identify equipment for turn-in or maintenance
72	E127	Initiate requests for rental equipment
73	E128	Initiate requests for visual aids
74	E130	Initiate work orders for photographic support
75	E131	Inventory equipment, tools, or supplies
76	E132	Maintain administrative files
77	E133	Maintain assigned mobility or contingency equipment
78	E135	Maintain cover story, caption, or project files
79	E137	Maintain library records
80	E138	Maintain publication indexes
81	E139	Maintain security containers or locks
82	E140	Pack equipment, supplies, or materials, other than mobile field equipment, for shipment or mailing
83	E141	Prepare classified materials for shipment or mailing
84	E142	Prepare equipment authorization lists
85	E143	Prepare requisitions for supplies
86	E145	Review manpower worksheets
87	E146	Review production cost-accounting logs
88	E147	Review requests for expenditure of funds
89	F148	Annotate dubbing logs
90	F149	Annotate edit decision lists
91	F150	Annotate project assignment sheets
92	F153	Coordinate art work productions with graphics shop
93	F154	Coordinate remote videotape coverages of special events with appropriate agencies
94	F156	Label visual information materials
95	F166	Perform as safety spotter during blacked-out night operations
96	F167	Research commercial publications
97	F169	Review copyrighted material clearances
98	F170	Review customer feedback of visual information documentations
99	F171	Review customer feedback of visual information productions
100	F172	Review edit decision lists
101	F173	Review project assignment files
102	F174	Select camera locations for productions or documentations
103	F175	Solicit customer feedback
104	G176	Acquire video under combat conditions
105	G178	Adjust cameras using camera control units (CCUs)

0020 Tasks not Referenced (Continued)

106	G179	Apply makeup to talent
107	G180	Conduct on-camera talent interviews
108	G181	Coordinate story treatment with talent
109	G182	Counsel talent on appearance, acting, or interviews
110	G184	Duplicate and distribute video products in the field
111	G185	Duplicate video products to different signal formats, such as SEACAM, PAL, or MTSC
112	G187	Establish points-of-view
113	G188	Identify technical video interferences, such as radar
114	G189	Inspect condition of videotapes
115	G190	Interconnect studio visual information equipment
116	G191	Interconnect videotape equipment with portable vans
117	G192	Letter using dry transfer or rub-down sheets
118	G193	Letter using hot-press techniques
119	G195	Perform art and animation videotape recordings
120	G196	Perform classified production or documentation videotape recordings
121	G197	Perform close-up (CU) recordings, other than CU medical recordings
122	G198	Perform CU medical videotape recordings
123	G202	Perform instrumentation videotape recordings
124	G204	Perform medical videotape recordings, other than medical CUs
125	G210	Premaster interactive video effects on discs
126	G212	Prepare production special effects
127	G220	Select filters for color productions or documentations
128	G221	Set focal length of lens
129	G224	Set up night-vision videotape cameras
130	G225	Set up videotape camera control equipment for instrumentation recordings
131	G227	Splice prompter scripts
132	G228	Transmit recorded images from the field
133	G230	Videotape slides
134	H232	Demagnetize audio recording equipment
135	H235	Interconnect audio equipment
136	H241	Prepare audio signal correction and noise reduction equipment for operations
137	H245	Review videotape recordings for proper audio slates
138	I247	Conduct full dress rehearsals
139	I248	Conduct preproduction planning conferences
140	I249	Conduct presite or shooting location surveys
141	I250	Counsel talent on effective prompting devices
142	I251	Cue talent or technical crews
143	I252	Develop storyboards
144	I253	Direct still photographers
145	I256	Edit prompter scripts
146	I257	Finalize production scripts
147	I258	Manage floor operations during productions
148	I259	Plan production treatment
149	I261	Preview recorded program materials
150	I262	Produce scripts from writers' outlines

0020 Tasks not Referenced (Continued)

151	I266	Review scripts for set construction requirements
152	I271	Schedule personnel for set construction
153	I272	Schedule studio equipment
154	I273	Schedule studio times
155	I274	Schedule talent interviews
156	I275	Select photos or slides for productions or documentations
157	I278	Write audio scripts
158	I279	Write cover stories
159	I280	Write interviews
160	I281	Write script formats
161	I282	Write videotape scripts
162	J286	Edit tapes using control-track techniques
163	J296	Program videotape editors
164	J297	Record composite master tracks from combined sound source materials
165	J300	Set up field editing equipment
166	L315	Arrange sets, props, or studio equipment
167	L316	Construct flats
168	L317	Construct modular sets
169	L321	Evaluate studio conditions for set construction
170	L322	Pack set materials
171	L323	Paint flats
172	L327	Store sets, props, or studio equipment
173	L328	Strike sets
174	L329	Transport set materials
175	M330	Acclimatize equipment prior to use
176	M335	Perform operator maintenance on electrical equipment, such as patch panels
177	M337	Perform operator maintenance on mobile equipment
178	M 338	Perform operator maintenance on mobile vans
